

room, toddler room, ICT suite, games room and café. The centre is on one level, has ramped access and there is a disabled toilet with a changing bed and hoist.

The Tim Lamb Centre benefits from a large fully enclosed play-garden; with playground equipment including an accessible sensory tower, accessible roundabout and wheelchair accessible swing. There are also play towers, swings, spinners, trampolines and a cruise-line zip-wire.

Although we largely support families, our facilities are also popular with several local special schools and other disability related charitable organisations.

Pathways 4 All offer short break care activities for disabled children, teens and young adults; including term-time social activity groups and a youth club. We also run an Easter and Summer playscheme.

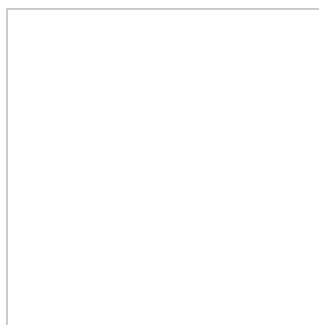

As a family-focused charity, we work with wider family members too; hosting regular parent-carer coffee mornings and sibling focused activities.

Pathways 4 All operate all our services on a family membership basis. Our membership is available to any family whose child/ young person has disabilities/ additional needs*. We know the journey to diagnosis can be a long one, so we welcome families whose children are pre-diagnosis too. *(Evidence of disability/ additional needs will be required on your first visit).

For more information about the Tim Lamb Centre and our other charitable services, please visit our website www.pathways4all.co.uk.
