

Public Health Small Grants Scheme Open

**North
Tyneside
Council**

Introduction

The Public Health department in North Tyneside Council will be allocating funds through a small grants process alongside the range of formally commissioned public health services. Charities and Voluntary and Community Sector (VCS) organisations can be key partners in delivering projects that help reduce health inequalities (in line with the North Tyneside [Health and Wellbeing Strategy – ‘Equally Well’](#)).

Small grants

North Tyneside Council is seeking to award a grant for a programme of work in the NE29 area of the borough to a single provider – focussing on working with young people living in the most deprived areas of Chirton and Riverside, but with the potential to offer some support to vulnerable young people in other geographical areas.

If you'd prefer an application form which can be completed electronically, please email PHsmallgrants@northtyneside.gov.uk

Find below links to the Guidance, Brief and Application form.

With thanks to North Tyneside Council for providing this information.
