

# Living Well North Tyneside

Supporting Health and Wellbeing

Resolution Centre will know the location of the device from the GPS coordinates so they can quickly direct the appropriate help to you. The GPS alarm is small enough to be used as a key fob or worn around your neck so you can carry it with you wherever you go. The alarm monitoring service is provided by Taking Care, who have been providing personal alarm services for more than 30 years. Since 2008 alone, Taking Care have helped 170,000 people stay safe in their homes, supporting customers and their families across the UK.

Prices subject to change. Pictures shown are for illustration purposes only. Personal alarm models may differ.
