

Living Well North Tyneside

Supporting Health and Wellbeing

in the UK.

We specialize in learning with one-on-one attention and guidance. We believe that one-on-one learning with native speakers gives students a more personalized learning experience and helps them get the most out of their lessons.

Each tutor creates materials that caters to your needs. Choose classes that fit your individual schedule, budget, and interests. Take a course for beginning, intermediate or advanced learners, or one focused on a specific goal like pronunciation or test prep. Or speak to one of our tutors to customize a course for your interests.

We provide an immersive language learning environment. Learn both the grammar basics and subtleties of a language, so you can communicate more confidently and more like a native speaker.

Get help and direct tutoring in a variety of languages or subjects such as Korean, Japanese, French, or even Math!
