

# Living Well North Tyneside

Supporting Health and Wellbeing

The Shed has been up and running since October 2021, is supported by a part time (commercial) project worker, but is essentially run by volunteer Shedders who have fitted out the space and equipped it with tools and equipment for community use.

The Shed is an excellent community space where our members are benefiting from its use for making, mending and up-cycling.

We offer a 6 week induction into the use of woodworking tools, machinery and materials before you are offered a place in The Shed.

If you would like to find out more please get in touch.
