

Living Well North Tyneside

Supporting Health and Wellbeing

respite services and domiciliary care. Creative Support is also a major provider of supported housing and we are proud of the quality of our accommodation schemes, many of which have been adapted to individual needs.

The supported living services we offer for people with a learning disability are recognised for enabling people to enjoy fulfilling lives. We have developed services for people who have very complex needs under the Transforming Care policy agenda. We provide creative day opportunities which enable personal development, social inclusion and pathways into work. We deliver individually tailored support for people with autistic spectrum conditions and physical disabilities.

Our supported housing and outreach services for people with mental health needs have a strong reputation for promoting recovery, rehabilitation and empowering service users to move on to greater independence. Our extra care and community support services enable older people to retain their independence and enjoy a good quality of life.
