

Living Well North Tyneside

Supporting Health and Wellbeing

lives in the family home.

Our purpose is to enable people with learning disabilities to live full and purposeful lives in their community and develop a range of activities including leisure interests, friendships, relationships, spirituality and education.

We support people in their own home in which living, learning, development and planning can take place within a caring and constructive environment, where the Service User feels safe and the surroundings are familiar. Identifying with Service Users and looking at issues from their prospective. Working alongside Service Users as partners while abandoning any 'Us and Them' attitudes.

Helping to create opportunities for Service Users choice, participation and involvement. Supporting and helping Service Users to develop their skills and to participate in meaningful activities with whatever assistance they require.

Helping Service Users to connect with their community. Giving Service Users the same status as any other valued member of the community. Complying and seeking to exceed the standards and regulations of the C.Q.C. local authority, Supporting People, Valuing People and the Housing Corporation.

Our CQC rating in 2018 was 'Outstanding'

community access | learning disabilities | autism spectrum disorders | independant living
