

The latest information about local prescription delivery services

Healthwatch North Tyneside has updated their popular prescription delivery leaflet.

At the beginning of the pandemic, people told Healthwatch that they would find it helpful to have their prescriptions delivered to their door.

In response they produced a useful guide of pharmacies in North Tyneside who offer delivery services. The guide includes information about availability, charges and how to arrange delivery.

The guide still remains useful for people who find it difficult to get to a pharmacy, so it will continue to be reviewed and updated with the latest information.

The latest version updated this month, can be downloaded by clicking the link below.
