

Your GP Looking After YOU - Covid Vaccine Booster Service

North Shields and Whitley Bay GPs have once again come together to provide the Covid 19 Booster Vaccine Programme.

****UPDATE 31/01/2022****

North Shields and some Whitley Bay practices are still offering Covid 19 vaccination - 1st, 2nd, 3rd and 4th doses, including offering vaccination to vulnerable 5 -11 year olds and those younger children living with anyone with a severely weakened immune system.

The numbers of people attending for vaccination at our current Royal Quays site are now lower, so we will be running our last clinic there this Saturday 5th February. We are moving operations to Collingwood GP Surgery in Hawkeys Lane, North Shields, this week and more information about this new location is available on the GP practice website <https://collingwoodsurgery.nhs.uk>

We will be running two 'invitation only' clinics for 5 - 11 year olds at this new vaccine service location over the first two weeks of February, and at least one 'all comers' clinic which will be on the National Booking System (but also walk-ins will be available, or book via your GP surgery.)

More information about Covid vaccinations and how to book on-line visit the **National Booking Service** or to find a walk-in clinic please check the **national walk-in finder service** for availability.

NHS Vaccination Centre,
Royal Quays Outlet Centre, Unit 30
Coble Dene,
North Shields
NE29 6DW
